Attribute Declarations in DTDs
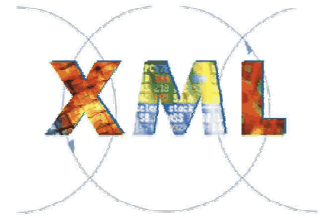

Attributes are declared per element:

```
<!ATTLIST section number CDATA #REQUIRED
                  title  CDATA #REQUIRED>
```

declares two required attributes for element `section`.

Possible attribute defaults:

- `#REQUIRED`   is required in each element instance

- `#IMPLIED`   is optional

- `#FIXED default`   always has this default value

- `default`   has this default value if the attribute is

  omitted from the element instance
